Your score of <number> has been recorded for <business name>. You may rate each business once a month.*" The caller is then returned to the **Main Menu**.

Note that: (1) in one embodiment of the invention (demonstration software), no verification will be performed to insure that the Rater has only rated a particular business once a month; and (2) Rater Number will be a 5-digit numeric number. —

#### REMARKS

Applicant submits this Preliminary Amendment in response to a Formalities Letter mailed May 7, 2001 (copy enclosed) requiring Applicant to submit substitute drawings to remove excessive text. (Applicant has responded separately to the Formalities Letter and provided the requisite fees and formal papers.)

Since the Letter did not identify any the particular drawings containing excessive text, applicant has used his own judgement and has identified FIG. 7A-7E as containing excessive text. The remaining drawings contain customary and permissible amounts of text and have not been amended.

This Preliminary Amendment inserts the text that has been removed from the figures into the specification at page 73, line 9, in the context of the flow-chart diagram. Descriptive text not literally present in the figures is inherent in the flow-chart diagram and no new matter has been added.

In the event that the Office believes that other of the figures require modification, Applicant respectfully requests that such figures be identified with particularity and the statutory basis for an amount of text that is excessive be identified.

The Assistant Commissioner is authorized to charge any fees associated with this communication to Deposit Account 06-1300 (Order No. A-69342/RMA).

Respectfully submitted,
